SOUHAIL MARCHICHE ET MEHDI MEGHARI

# D-CONSTRUCTION

D-Construction is a very energetic hip-hop dance performance with a powerful beat and an oriental twist.

Six dancers experience the liberation of the mind through movement. Merging into a group, they create a stronger entity; breaking apart, they assert their uniqueness.

A metal scaffolding stands in the middle of the playground and the dancers interact with it.

It cages, protects and frees them at the very same time.

D-Construction connects, inspires and destroys to create something new.
